ROUNDTABLE DISCUSSION

"EITI systematic disclosure: how to use the best practices"

The purpose of the event is to share experience in EITI data systematic disclosure through best practices in different EITI countries. The event will cover such topics as how to make EITI data accessible to public, how to read EITI data and "translate" it to local communities, how systematically disclosed data could improve communication among stakeholders. Speakers will discuss these questions, to help participants to build their vision for EITI systematic disclosure.
